LED SIGN LIGHTER STRIPS

1-4 STRINGS | 12V

KEY FEATURES

LEDS Sign Lighter Strips deliver high-performance illumination for signage retrofits and lighting upgrades. Designed with rugged, industrial-sealed plastic and powered by 12V DC, these strips are durable and versatile. They feature heavy-duty 3M double-sided backing for easy installation and offer endless application possibilities. Available in various wattage and lumen configurations, they are the ideal solution for any signage needs. Backed by a 5-year warranty for lasting reliability.

Light Quality

- 80W up to 200W options
- 4 String options
 - 1 String: 30 Modules
 - 2 String: 60 Modules
 - 3 String: 90 Modules
 - 4 String: 120 Modules
